Non-Permanent Service Agreement

Members who request electric service that is non-permanent (ie: campsites, grain bins, summer home, etc.) in nature shall be charged a fee based on the following schedule:

Request for electrical service for less than:

Thirty (30) days	\$300.00
One hundred twenty (120) days	\$250.00
Less than twelve (12) months <u>and</u> More than four (4) months	\$200.00

I am requesting service to be turned on at a non-permanent service and I am agreeing that the service will be left active for at least 12 months. If we request the service to be disconnected or we are disconnected for non-payment and it is less than the 12 month usage period, I understand that the fee (according to the fee schedule above) will be added to my account.
